Skills

Frontend : Angular , Bootstrap

Backend : SpringBoot, Express.js, Node.js, REST APIs

Database : MongoDB , Redis, PostgreSQL

Tools & Technology : Git , postman , PostgreSQL , Docker, Github , Npm

Architecture & Concept :

Microservices , JWT Authentication , Load Balancer , API Gateway, OPPs, MVC Architecture

Soft skills : Teamwork , Quick adaptatio, Quick learner

Objective

Motivated Computer Engineering student seeking an entry-level Software Developer role where I can apply my knowledge of Java, **SpringBoot**, **Microservices**, and web development while **continuously learning** and contributing to innovative **software solutions**.

Experience

Internship | IBM SkillBuild

01/06/2026 — 15/06/2026

- Acquired foundational knowledge in Artificial Intelligence (AI) principles.
- Studied core concepts within the field of AI.
- Developed understanding of AI basics.

Projects

Whisper chat

- Developed a web-based chat application supporting **anonymous global, group, and private messaging**.
- Enabled users to share thoughts and **communicate freely within a secure environment**.

🔗 <https://whisperanonymous.vercel.app/>

Technologies Used: Angular, Express.js

Quiz webapp backend

- Architected a dynamic quiz web application utilizing Spring Boot and a **microservices architecture**.
- Implemented secure authentication using Spring Security and **JWT (JSON Web Tokens)**.
- Integrated **Spring Security** to manage user authentication and authorization.

🔗 <https://whisperanonymous.vercel.app/>

Technologies Used: Spring Boot, Microservices, Spring Security, JWT

Road Rescue

- Developed a responsive front-end interface using Angular for efficient user interaction and **real-time request management**.
- Designed and implemented **RESTful APIs with Express.js** to handle vehicle request submissions, driver dispatch, and service updates.
- Utilized MongoDB Atlas for scalable database storage of user profiles, vehicle information, and location
- Built real-time notification system leveraging **websockets** to alert users and drivers about request status and service progression.

🔗 Road Rescue

Technologies Used: Angular, Express.js, MongoDB Atlas

Education

B.E. Information Technology | Gujarat Technological University

Present

Laxmi Institute of Technology, Sarigam

Score: 8.22 CGPA

HSC Maharashtra board | National English High School

2023

Score: 54.17%

SSC Maharashtra board | Jadi Rana High School

2021

Score: 50.80%

Certifications

NextGen Techathon

Laxmi Institute of Technology, Sarigam

Participated in a **National-level Techfest** showcasing technical problem-solving and innovative skills. Developed abilities in **collaborative project management, rapid prototyping** techniques

Idea Pitch | laxmi Institute of Technology, Sarigam

Participated in **Ekatra 2026**, a **Premier Technical Festival** organized by Laxmi Institute of Technology, Sarigam, showcasing our project Road Rescue to startup Vapi

Activities

Participation | Laxmi Institute of Technology, Sarigam

Remote

Competed in a national-level coding competition hosted by Laxmi Institute of Technology, Sarigam.
